

LOCATING *COURSE ID* TO PROVIDE TO EXAMITY

The Course ID of your course is not your course name (HIST 1301). It is a randomly generated number corresponding to Colleague. Locate your Course ID by following these directions:

1. Within your course, in your Control Panel, click on Course Tools, and Discussion Board.

2. On the Discussion Board area the Course ID that Examity needs will be the number listed as the first Discussion Board.

Send this Course ID number to Examity to get the connection between your course and Examity setup.
