New Product Names

We've changed the names of our proctoring modalities to better reflect their features. If you have questions about whether a particular proctoring level is right for your exams, please contact your Client Success Manager.

We advise that you do not change the proctoring level of an exam if a test-taker has already scheduled it or once the exam starts.

Using Eximity With Your LMS Platform

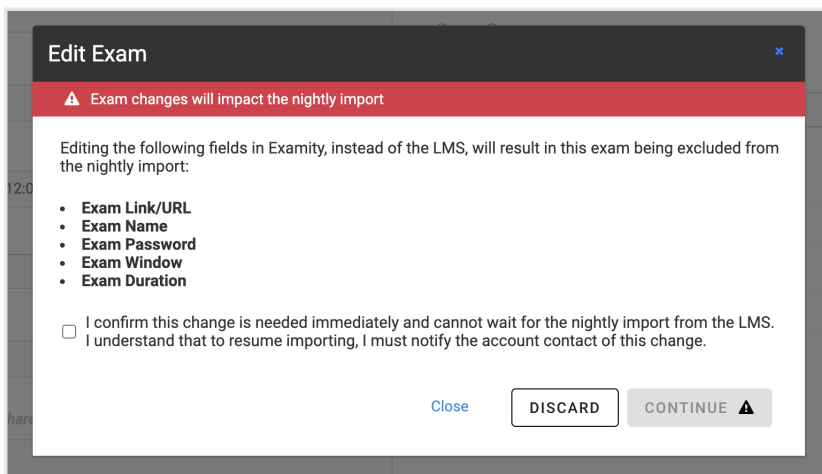

If your Eximity platform is integrated with your Learning Management System or your test delivery/enrollment management platform, you will access Eximity via links in your system.

Your courses, exams, and test-takers should continue to be created in your LMS or test delivery/enrollment management platform. The integration with Eximity means your data will be imported to Eximity automatically. The process of importing means to download data onto a platform from a different source.

NOTE: There are steps that you must follow before your data can be imported over. The steps vary based on the LMS. Please reach out to your Client Success Manager for more information.

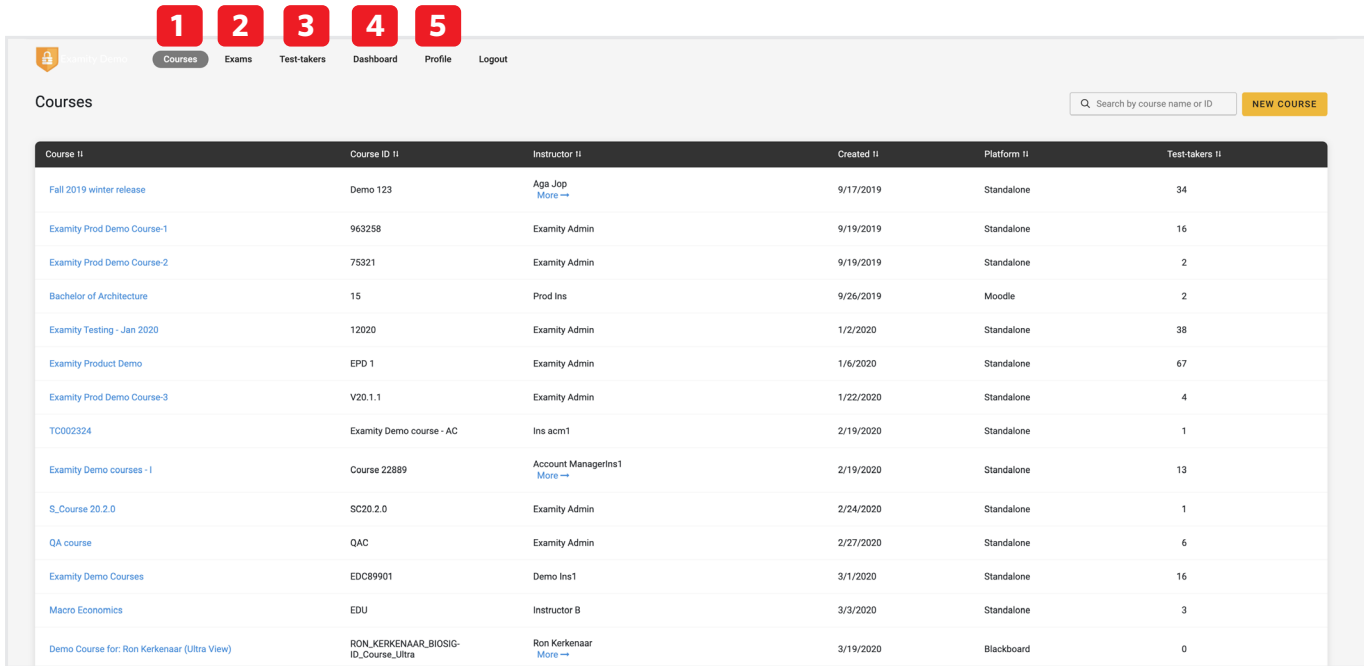

- **LMS integration:** You need to click on Eximity link to import the course first, then your exams and test-taker data will be imported overnight and will be available the next day.
- **Test delivery/enrollment management platform:** Your data flows through APIs links, which means the data you create in your system should be available in Eximity within minutes.

Our recommended practice is to always edit exam details within your LMS or exam platform. If you edit some key exam details directly in Eximity, this action will cause the data import to stop. Those key exam details include the Exam Name, the Exam Duration, the Exam Window (the start date/time and the end date/time), the Link to Exam, and the Exam Password.

Navigating Your Eximity Dashboard

Your Eximity dashboard has five distinct areas to help you manage test-takers and exam appointments.

Course ID	Instructor	Created	Platform	Test-takers
Fall 2019 winter release	Aga Jop	9/17/2019	Standalone	34

1. Courses: View all of your courses. You may also drill down further to see course details, test-takers, accommodations, and exams. Clicking the column headers allows you to sort by that field. Courses link your exams with your test-takers. Once enrolled in a course, a test-taker will have access to schedule or start appointments for all of the exams within that course.

2. Exams: With this view, you'll be able to see all of your exams across all of your courses. You will be able to see the exam status, modality, and activity.

3. Test-takers: Review details on all test-takers for your institution.

4. Dashboard/Reports: One-touch access to Eximity's robust reporting and analytics. Here, you can explore a variety of real-time reports.

5. Profile: This is where you set your time zone that will drive the display in your Eximity dashboard, including the exam scheduling window you will set and all reports.

Editing Your Exam

On the dashboard, select “Exams” at the top of your screen.

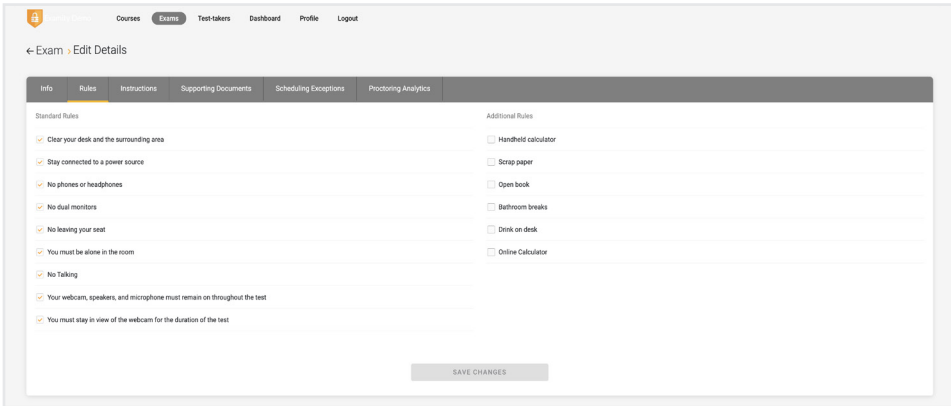

To access and input details for your exam, click the exam name. This will bring you to the exam shell, which is categorized into five distinct sections:

1. Info
2. Rules
3. Instructions
4. Supporting Documents
5. Exam Results

1. Info represents the foundation for your exam. Details include the scheduling window, the exam duration, the exam URL, and exam password. You can also select whether you would like to give test-takers the option to upload a file directly into Examyty. You can enable additional security settings like Extension Block, Browser Lock, and more. If you are interested in these options but do not see them when setting an exam, please contact your Client Success Manager for more information.

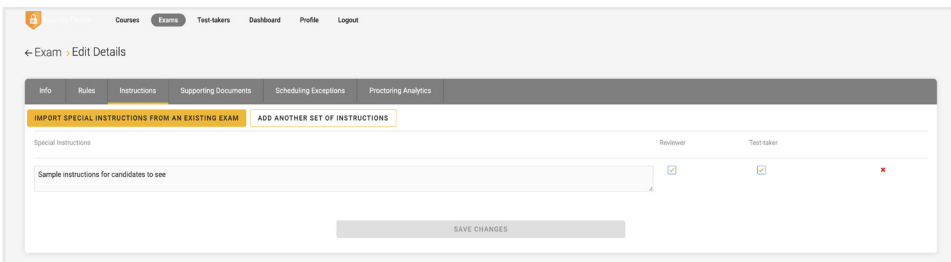

2. Rules allows you to specify rules for your exam. All exams have standard rules (listed on the left) that are a constant for every exam proctored with Examity. There is also an “Additional Rules” section (on the right) that provides optional rules for your exam. You can check off any additional rules that you would like to apply to your exam. For example, checking off “Scrap Paper” will allow test-takers to use scrap paper during the exam. Then, click “Save Changes” to lock in your additions.

3. Special instructions can be added in the **Instructions** section. This is a critical step to clarify any policies, processes, or steps that are specific to your exams. Work with your Client Success Manager to define clear instructions for your exams that help test-takers, proctors, and auditors understand exam expectations.

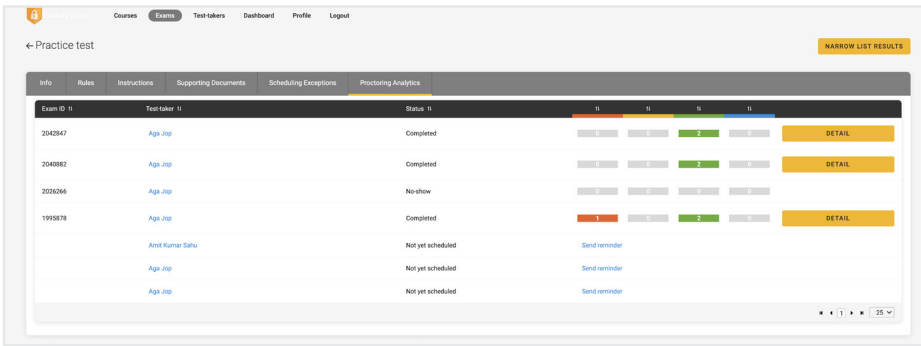

Clicking “Import special instructions from an existing exam” allows you to quickly clone special instructions from another exam.

4. The Supporting Documents section is where you will be able to upload any critical assets for your exam, such as exam reference materials. **The test-taker has access to the materials just before the recording begins, and before they are connected to their proctor. If you provide supporting documents, the test-taker will be reminded to download them before they can proceed.**

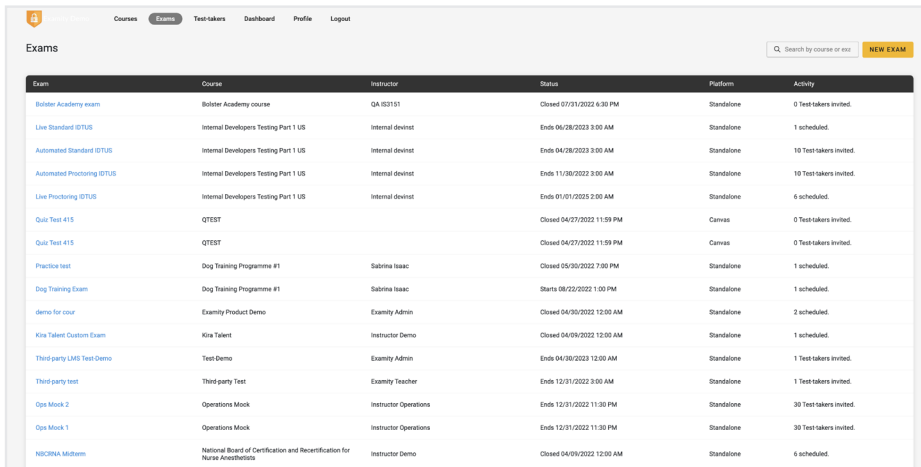

5. Within **Proctoring Analytics**, you will be able to see who has scheduled an exam appointment, as well as any violations that may have taken place during completed sessions. **See Tracking Exam Appointments Status.**

Tracking Exam Status

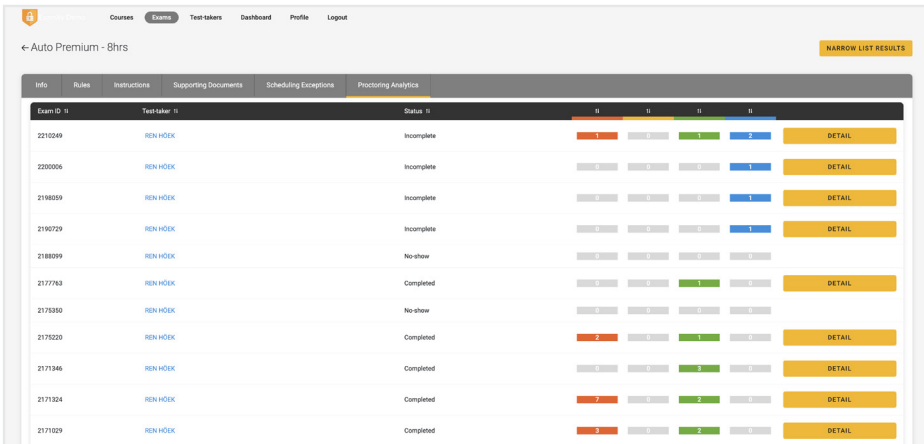

Check the status of appointments by selecting “Exams” at the top of your dashboard.

The following exam statuses may appear here:

Current Session	Definition
Scheduled	The test-taker has created an appointment time for their exam.
Cancelled	The test-taker has cancelled the test appointment.
Verification in Progress	The test-taker has started the exam process and is going through the steps to connect to proctor.
Waiting for Proctor	The test-taker is in the exam queue and awaiting proctor to be assigned.
Processed by Examity	For Automated exams, this status is applied when exam is submitted and sent or Completed to the client dashboard. No Auditor review.
Pending at Auditor	The test-taker has submitted their exam and it is awaiting review by the auditors.
Incomplete	The Candidate was not able to access the exam questions – this could be for any number of reasons (improper ID, LMS issue, internet capability, etc.)
Approved by Auditor	This exam has been reviewed by Auditors. If the test-taker has accessed the exam, the auditor will mark the exam as Approved after adding any necessary flags.
No Show	The test-taker did not arrive for their scheduled appointment. The system will change the status to No Show 35 minutes after the scheduled exam time.

To see the proctoring results, select the exam you wish to view. Then, navigate to the “Proctoring Analytics” tab. Here, you will see all appointments scheduled or taken by test-takers for the selected exam, the status of their exam, the exam ID, and any potential violations that may have taken place.

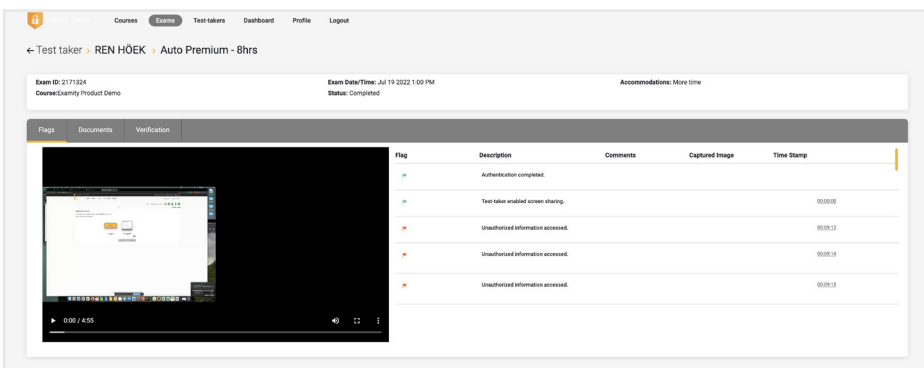

Exam ID	Test taker	Status	Red	Yellow	Green	Blue	Action
2210249	REN HOEK	Incomplete	1	0	1	2	DETAIL
220006	REN HOEK	Incomplete	0	0	0	1	DETAIL
2198059	REN HOEK	Incomplete	0	0	0	1	DETAIL
2190729	REN HOEK	Incomplete	0	0	0	1	DETAIL
2188099	REN HOEK	No show	0	0	0	0	DETAIL
2177763	REN HOEK	Completed	0	0	1	0	DETAIL
2173850	REN HOEK	No show	0	0	0	0	DETAIL
2173220	REN HOEK	Completed	2	0	1	0	DETAIL
2171346	REN HOEK	Completed	0	0	2	0	DETAIL
2171324	REN HOEK	Completed	2	0	2	0	DETAIL
2171029	REN HOEK	Completed	3	0	2	0	DETAIL

The Examity flagging system provides exam administrators with a snapshot of what happened during each exam:

- **Green flags** are raised for significant steps where there is no violation.
- **Yellow flags** are issued when a rule is broken, but misconduct may not have been intentional.
- **Red flags** are given when the test-taker exhibits a clear breach of exam rules and/or instructions.
- **Blue alerts** are reported when a technical issue arises.

To view the results of a specific appointment, click the “Detail” button at the end of the appointment’s row to view the exam recording and details of any flags. The time stamps are hyperlinked so that you can jump to the spot in the recording where the behavior occurred.

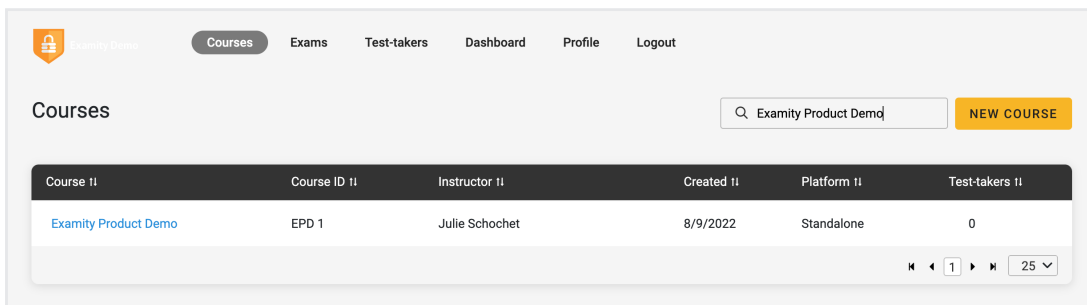

Flag	Description	Comments	Captured Image	Time Stamp
+	Authentication completed.			00:00:00
+	Test taker enabled screen sharing.			00:00:00
-	Unauthorized information accessed.			00:00:13
-	Unauthorized information accessed.			00:00:14
-	Unauthorized information accessed.			00:00:15

Accommodations

If test-takers require accommodations, you can make sure proctors are aware ahead of time by entering the information at the course level. This means that any accommodations added will apply to all exams within this course.

Any time accommodations added to Examity must be added to your LMS or exam platform first. Examity is not in control of the exam timer. The exam timer is set in the LMS.

1. Click on “Courses” at the top of the Examity dashboard, and select the course you wish to add accommodations to.

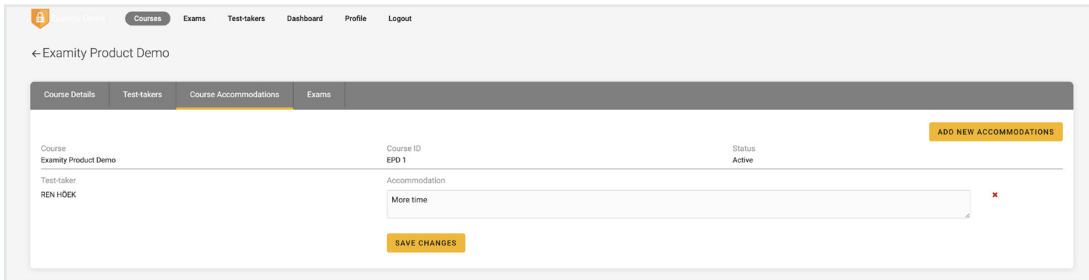

2. Click on the “Course Accommodations” tab.

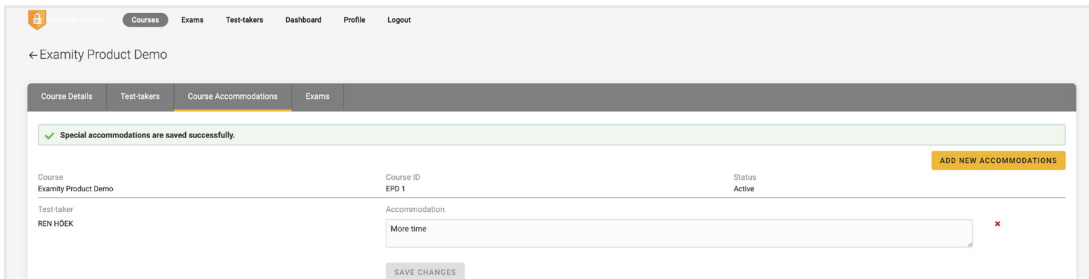

3. Select the name(s) of the test-taker(s) in the drop-down menu.

4. Enter the accommodation in the “Accommodations” box and click “Add Accommodations.”

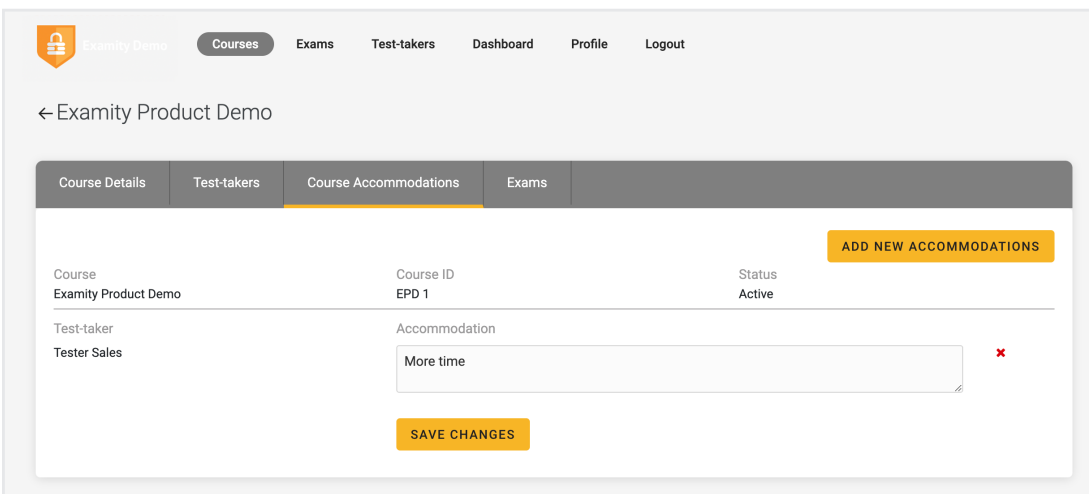

5. You will see a breakdown of each test-taker and their respective accommodations. Finally, click “Save Changes.”

Editing/Deleting Accommodations

To delete an accommodation:

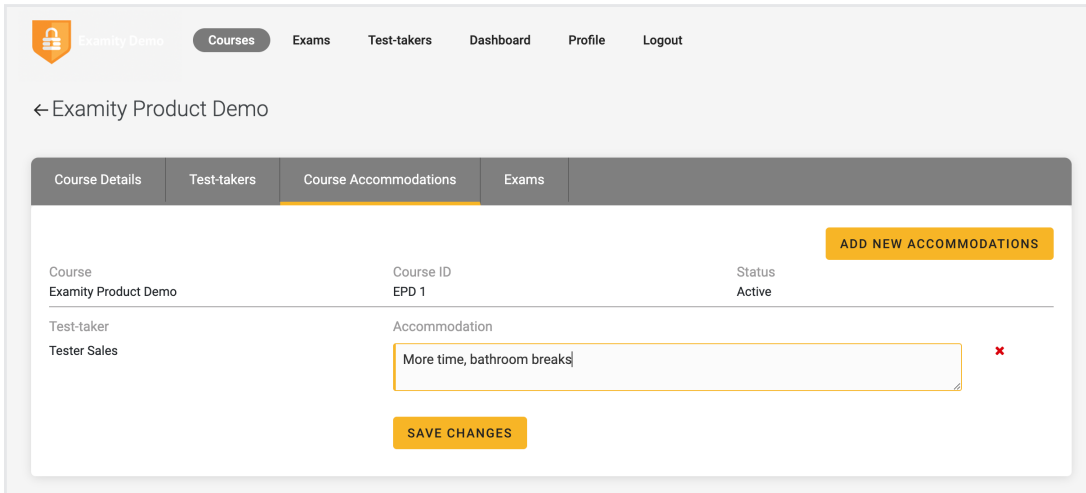

1. Click the red “X” on the far right side of an existing accommodation.
2. Once you are done making changes, select the “Save Changes” button on the bottom of the page to save any updates.

Failing to “Save Changes” will not delete the accommodation.

To edit an accommodation:

1. Locate the accommodation for the particular user you would like to make changes to.
2. Click within the box for an existing accommodation and make changes.

<input checked="" type="checkbox"/>	ETS Demo	Demo Instructor	ETS Demo Exam	Naila Ghorbel	nghorbel@examity.com

⏪ 1 ⏩ 25 ▾

NOTE: You can also select the checkbox in the top left corner of the table to select all test-takers.

5. Select the “send reminder email” button which appears next to the “NARROW LIST RESULTS” button once the test-takers have been selected.

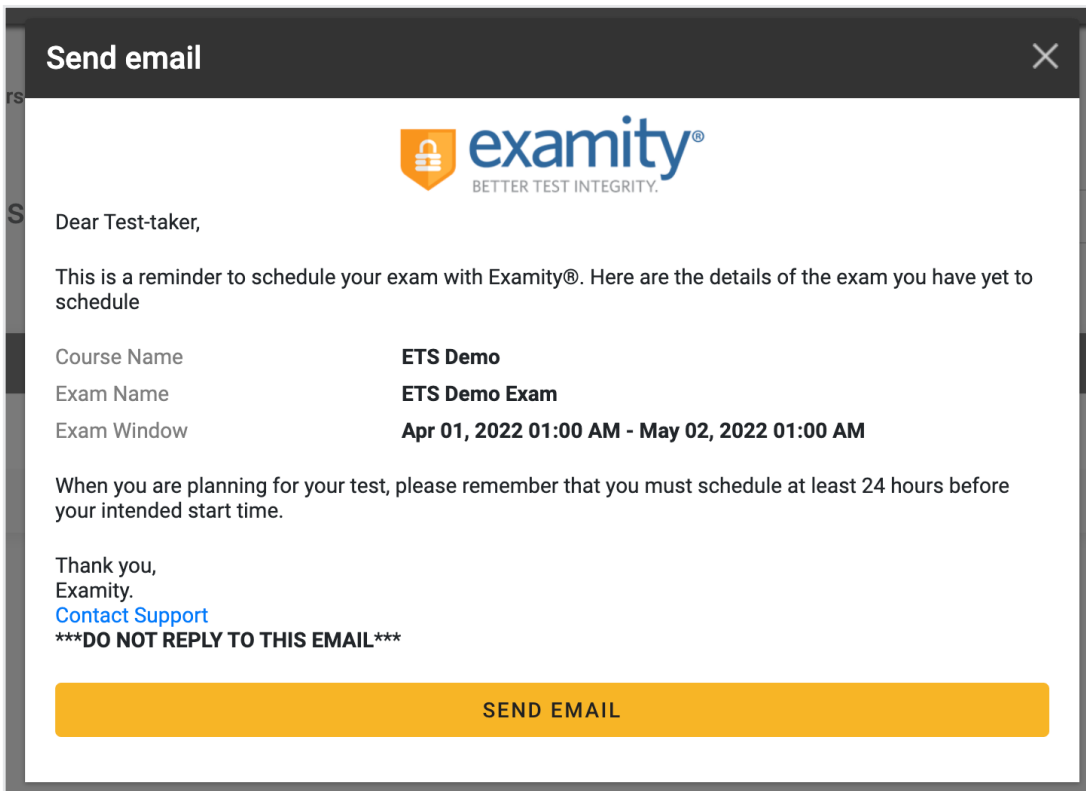

The screenshot shows the Examity dashboard with the 'Dashboard' tab selected. The page title is 'Schedule Status > Unscheduled Test-takers'. A yellow button labeled 'NARROW LIST RESULTS' is visible. To its right, a 'Send reminder email' button is highlighted with a red box and a red arrow pointing to it. Below the buttons is a table with one record:

<input checked="" type="checkbox"/>	Course ID	Instructor ID	Exam ID	Test-taker ID	Email ID
<input checked="" type="checkbox"/>	ETS Demo	Demo Instructor	ETS Demo Exam	Naila Ghorbel	nghorbel@examity.com

Showing 1 - 1 of 1 records

6. You will see a preview of the email on the screen.

The screenshot shows a 'Send email' preview window. The window title is 'Send email' with a close button (X) in the top right corner. The email content is as follows:

Dear Test-taker,

This is a reminder to schedule your exam with Examity®. Here are the details of the exam you have yet to schedule

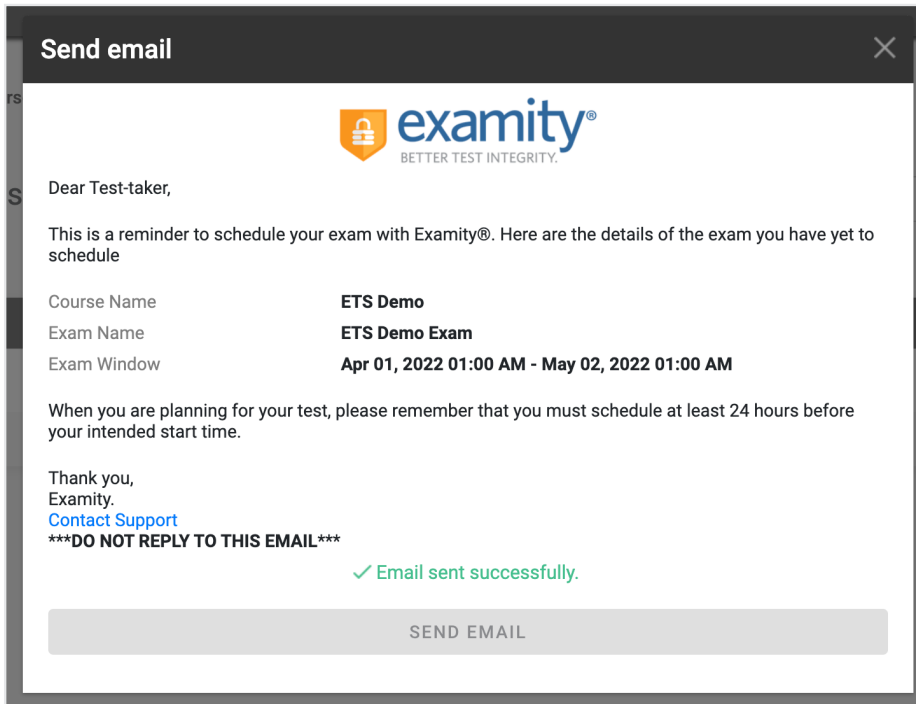

Course Name **ETS Demo**
Exam Name **ETS Demo Exam**
Exam Window **Apr 01, 2022 01:00 AM - May 02, 2022 01:00 AM**

When you are planning for your test, please remember that you must schedule at least 24 hours before your intended start time.

Thank you,
Examity.
[Contact Support](#)
DO NOT REPLY TO THIS EMAIL

At the bottom of the preview window is a large yellow button labeled 'SEND EMAIL'.

7. Select “Send Email” and wait until you see the confirmation message: “Email sent successfully.”

Scheduling Exceptions

You can create scheduling exceptions for test-takers who need to schedule their exam outside of the scheduling window. Scheduling exceptions allow you to set a new or unique scheduling window that is specific to the test-taker. This new window will display to the test-taker when they go to schedule, and they will not be able to schedule outside of this set window.

Any applicable exam fees, exam buffering, etc., still apply to exams that have Scheduling Exceptions. For example, a test-taker may be allowed to take their exam early, but they will still be charged an On-Demand fee if that exam is within 24 hours (if this pricing configuration is enabled).

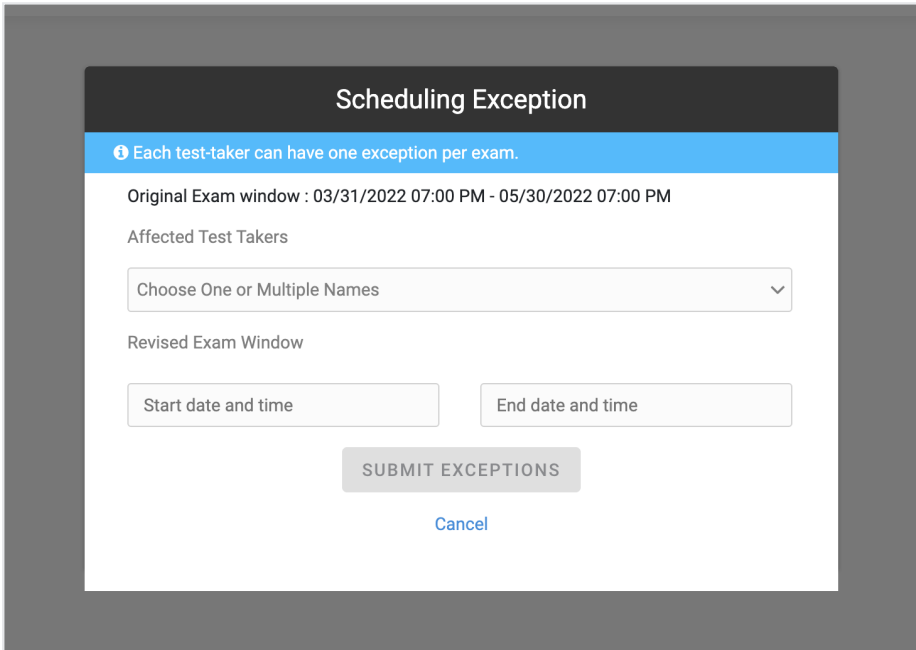

NOTE: There can only be one Scheduling Exception per test-taker per exam.

Create a Scheduling Exception:

1. Log in to Examity and locate your exam.
2. Click the “New Scheduling Exception” button on the “Info” or the “Scheduling Exception” tab.

3. Select the test-taker(s) who will share the new scheduling exception scheduling window. You can only add one scheduling exception timeframe at a time, but you can add multiple test-takers to the same window.

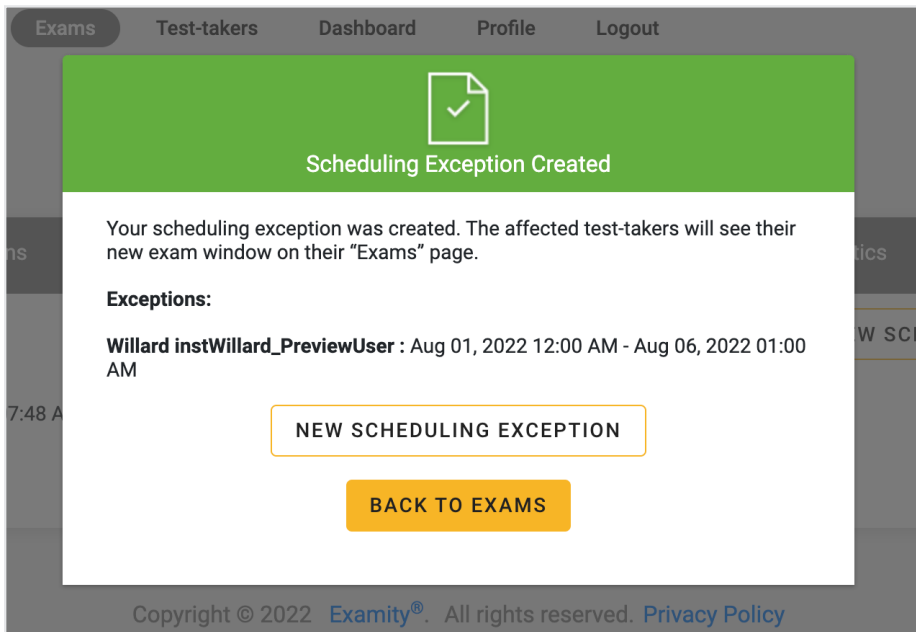

The screenshot shows a 'Scheduling Exception' form. At the top, it says 'Each test-taker can have one exception per exam.' Below that, the 'Original Exam window' is listed as '03/31/2022 07:00 PM - 05/30/2022 07:00 PM'. Under 'Affected Test Takers', there is a dropdown menu with the text 'Choose One or Multiple Names'. The 'Revised Exam Window' section has two input fields: 'Start date and time' and 'End date and time'. At the bottom, there are two buttons: 'SUBMIT EXCEPTIONS' and 'Cancel'.

4. Select the revised scheduling window that will be applied to all of the selected test-takers. The selected test-takers will only be able to schedule their exam during this window, so make it wide enough to accommodate the exam duration and exam buffer time.

5. Click "Submit Exceptions" to save your changes.

6. Click "New Scheduling Exception" to create another scheduling exception window for other test-takers or "Back to Exams" to exit this workflow. The selected test-takers will see the new exam scheduling window you provided for this scheduling exception.

The screenshot shows a confirmation message titled 'Scheduling Exception Created'. It includes a green banner with a checkmark icon. The message text says: 'Your scheduling exception was created. The affected test-takers will see their new exam window on their "Exams" page.' Below this, it lists 'Exceptions:' and shows an example: 'Willard instWillard_PreviewUser : Aug 01, 2022 12:00 AM - Aug 06, 2022 01:00 AM'. At the bottom, there are two buttons: 'NEW SCHEDULING EXCEPTION' and 'BACK TO EXAMS'. The footer of the page reads 'Copyright © 2022 Examity®. All rights reserved. Privacy Policy'.

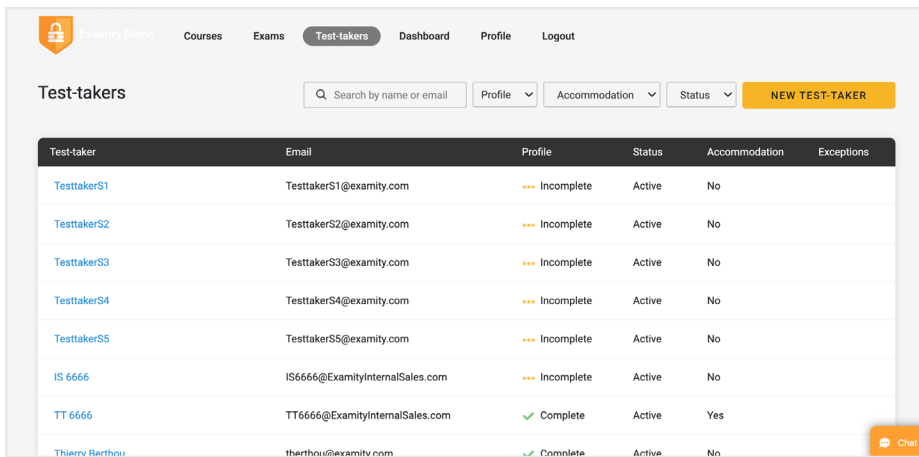

View, Change, or Delete Scheduling Exceptions by Exam:

1. Go to the “Scheduling Exceptions” tab.
2. Find the test-taker and click “Change” to change the exam window or “Cancel” to cancel the exam window.

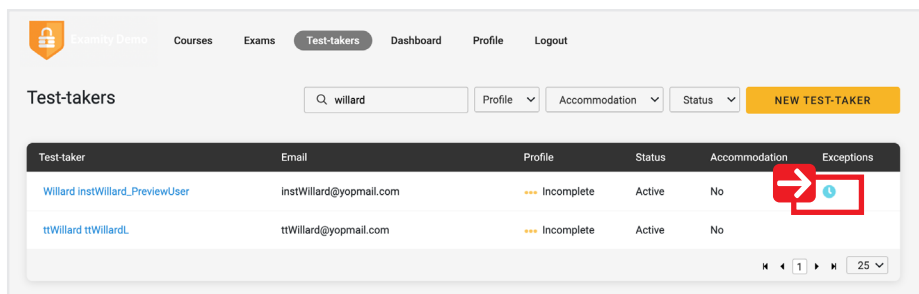

View, Change or Delete Scheduling Exceptions by Test-taker:

1. Log in as an exam administrator and go to the “Test-takers” menu option.

2. Find the test-taker and click either the test-taker’s name or the blue clock icon in the “Exceptions” column.

3. Find the exam and click “Change” to change the exam window or “Cancel” to cancel the exam window.

If you cancel the scheduling exception, test-takers will see the original exam window that all other test-takers see.

Reporting

Your exam administrators will have access to the following reports – only for courses they are assigned to:

Dashboard

Reports

Report	Description
SCHEDULE STATUS	Identify the test-takers who have, and have not, scheduled a session.
