

QUICK START FOR ZOOM CLOUD MEETINGS MOBILE APP, ANDROID

Join Zoom meetings on the go using the Zoom Cloud Meetings app on Android. It is not recommended that you Host a meeting on the mobile app since its features are limited.

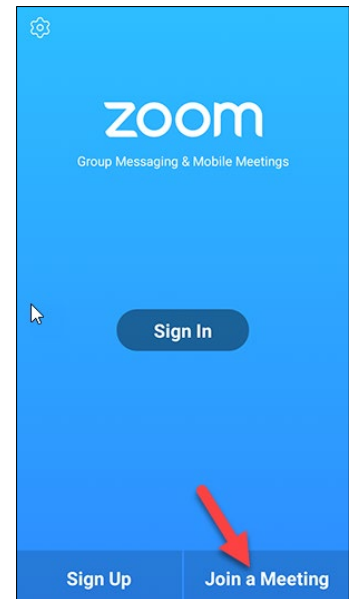

Students /Participants: You can join a meeting without signing in or creating an account, however you will need to enter the Meeting ID and Passcode to enter the meeting. See [How to Find My Meeting ID & Passcode](#) or contact the meeting host for this information.

JOIN

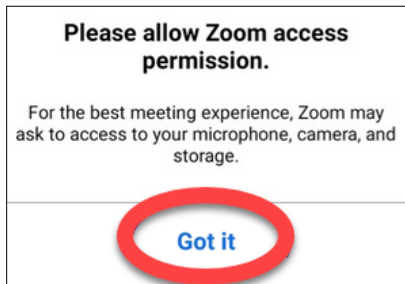

1. If you do not have the app, download the Zoom Cloud Meetings app (available on [Google Play](#))
2. Open the Zoom Cloud Meetings app and select **Join a Meeting**.
3. From your meeting invitation, locate your meeting ID and passcode or click on the meeting link.
See [How to Find My Meeting ID & Passcode](#)
4. If prompted, enter your meeting details. If not, skip to Step 6.

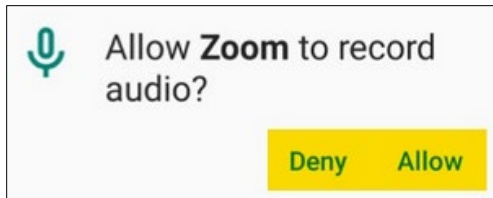

- a. Enter your 7 digit **Meeting ID**.
 - b. Enter **your full name**, for attendance tracking.
 - c. Toggle your audio and video options ON or OFF.
 - d. Tap **Join** to proceed.
5. On the next window, if prompted, enter your **Meeting Passcode** and tap **OK** to enter the meeting.

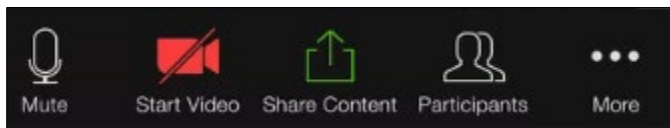

6. Tap **Got it** to permit Zoom to access your device's microphone, camera, and storage.

7. Tap Deny or Allow to reject or permit audio recording.

8. Once you are in the meeting use the in meeting controls to Stop/Start your audio and video as needed.

9. Select **More** to add a **Virtual Background**.

10. To leave the meeting click **End**.
